Prioritizes clean code and documentation

Works **effectively** in a team or as an individual

A **critical thinker** that enjoys **solving problems**

Experience

Digital Fusion

- Software Engineer Intern for 9 months
 - Junior Software Engineer for 6 months
 - Full-stack work experience: database, back-end, front-end and client-side
- March 2021 - Present
- Re-engineered **3** different ops tools used by developers and tech support workers. These tools were previously broken, poorly-designed and using outdated frameworks.
 - Learned how to self-administer **Git** branches
 - Occasionally took on tech support database work that was too technically complicated for the tech support team

Projects

Sand Paper

- Programmed in Java with JavaFX
- Generates 3D scenery using only 2D images
- Java code is organized, debugged, validated and contains JavaDocs
- Includes a professional 40-page, beginner-friendly tutorial
- Aesthetically pleasing and simple GUI

Education

- Jan. 2015 – June 2019
- Chemeketa Community College, AAS in
Computer Science w/ Programming Certificate**
- Cumulative GPA: 3.54
